This is a **Seahorse.**
It is mostly found in shallow tropical and temperate waters throughout the world.

This is an **Octopus**.
Octopuses inhabit diverse regions of the ocean, including coral reefs and the ocean floor.

This is a **Clown Fish**.

Clown Fish are native to warmer waters and live at the bottom of shallow seas in sheltered reefs or in shallow lagoons.
These are **Dolphins**.
They are found across the world with most species of Dolphins preferring the warmer waters of the tropical zones. A few species however prefer colder climates.

This is a **Sea Turtle** (also known as Marine Turtle)
Sea turtles can be found in all oceans except for the polar regions.

This big fish here is a **Manta Ray**.
Mantas are found in temperate, subtropical and tropical waters.

This is a **Starfish** (also known as Sea Stars).
Starfishes are found in salt waters all over the world, from the Atlantic Ocean to the Indian Ocean and beyond.
