

Animal Homes

Author: Ashwitha Jayakumar

Illustrator: Nafisa Nandini Crishna

Level 1

Animals live all around us.

Birds build their homes up high.

And so do bees.

Spiders spin
their homes.

Tiny termites build
tall, tall homes.

Snails and tortoises grow
homes on their backs.

Fish live in the water.

Frogs can live in water and on land.

Rabbits and rats live in
burrows under the ground.

Monkeys and apes make
trees their homes.

Bears and wolves live in dens.

Crocodiles live in swamps.

Deer live in forests.

And so do tigers!

One Large Home

Some animals live close to us and
some live far away.

But do you know what we have in
common with all the animals of the
world?

We all build our homes in one large
home: **planet Earth!**
