“Forest Fairy I need your help. I can’t count I’ve tried, but when I see a number I want to hide.”

“Now, now Lilly it can’t be that bad,” said the fairy as she landed by her side.

“All you need is some practise. I’ll take you to the forest you will find a lot of numbers there. So let us not give up yet, first let’s see how we fare.”

She took out her wand and with a swish magical dust appeared, Lilly became smaller as it glittered around her and then disappeared.

The fairy lifted her wings, took Lilly by the hand and began to fly.

And together they lifted to the sky.

Woof, Woof! The bark made the fairy look to the ground.
“It’s my dog fairy I have only 1.
He likes to run and wag his tail for fun.”
“There look how easy that was Lilly, you counted 1.”
And so there counting journey begun.

"How much do you see Lilly?"

She pointed her finger and counted aloud, "1, 2, 3, 4, 5, 6, 7, 8, 9 and 10."

"That's right Lilly do you want to practise again. And Lilly counted all the way home from 1 to 10."

About Carmen Saptouw

As a young child of only 8 years old, she was inspired to write children's stories. Following her childhood years, she got so involved with being a teenager that she completely forgot about her passion for writing. Only in 2011, the year she turned 29, was her passion reawakened from its deep slumber when her dad found the stories she had written as a child. So more than 20 years later she rewrote the stories with the aim to preserve it, but as she typed, the stories evolved and new ideas were sparked. She aspires to share her stories with children around the world, and for each story to have a sound moral lesson.
