

Bees LIKE Flowers

Rebecca Bielawski

MUMMY NATURE SERIES

Nurturing children's curiosity

by Rebecca Bielawski

Each book in the series is one mini nature lesson wrapped up in colour and rhyme. These books are intended for very young children including toddlers and will give them just a glimpse into some of the wonders of the natural world around them. Illustrated for maximum vibrancy and visual impact, using rhyme to engage young minds and encourage participation.

Bees like flowers,
Look! A buzzy bee!
Sometimes they sting people,
But they never sting me.

You see,

she's got a fluffy body,

But, don't touch her

cos she might...

**Get you with her stinger,
Cos you've given her a fright.**

I don't bother them – they're working,
I just watch them do their thing.

They walk around on flowers,
And stick their little faces in.

**Bees like flowers,
That are growing in the ground.**

**Bright colours bring them closer,
And keep them buzzing round.**

Bees like flowers,

And the nectar
that's so sweet.

But,
when they fly away,
Something sticks on
to their feet.

It's pollen and it's yellow,
Look, it's sticking to the bee.

She takes it to another flower,

Or the blossoms
of a tree.

So, flowers like
bees too,

"Thank you bees,"
they say.

**They help to spread the pollen,
And make new flowers far away.**

**This is called
a beehive,**

**The bees
call it their home.**

The queen lays her
eggs in there,
Inside the
honeycomb.

**Bees use the nectar,
To make honey in the hive,**

**They feed it to the babies,
When they finally arrive.**

**Yummy, runny honey,
made by our friends
the bees,**

They might give you a little bit...

**If you would just say,
"please".**

So, that's why bees like flowers, 
And that's why...

The End

Insect Bodies

**Insects have 6 legs.
Count my legs.**

**Insects have 3 parts to their bodies.
Count my body parts.**

Am I an insect?

Flower Names

Poppy

Sunflower

Daisy

Can you find them in the story?
