

Are You a Fish?

Author: Shabnam Minwalla

Illustrator: Adrija Ghosh

Level 2

The background of the slide is a stylized illustration of the ocean. It features various shades of blue, from light sky blue to deep navy blue. There are white, frothy waves on the left side. Several schools of small, dark blue fish are scattered throughout the water. The overall style is clean and modern, with soft gradients and simple shapes.

There are strange new fish swimming in the sea.

They look and behave like ordinary fish.
But they are made of metal and foam,
cloth and plastic.

PAWP

paawwwwwp

RoboTuna swims far and fast like other tuna fish.

It is also a policeman underwater.
It chases smugglers and pirates at sea.

shhhrrrrrrr

shhhrrrrrrr

SoFi is a soft robot with fins and a tail.

It takes videos of life deep inside the ocean.
The fish are not afraid. They swim with SoFi.

Jellyfish Robot is made of gel.

It catches fish with its soft, transparent tentacles.
It swims around without being seen.

Robot Eel has a long, black body and red eyes.

One day, it might live on the sea floor.

It might fix broken pipes and machines underwater.

The background of the slide is a stylized illustration of a stormy sea. The sky is white with numerous short, grey diagonal lines representing rain. The sea is depicted with dark blue and black waves. On the left, a large white wave is curling. In the middle-right of the sea, there is a small, dark blue, octopus-like robot with two small, curved appendages. The overall style is simple and illustrative.

OctoBot looks like a small octopus.

One day, it could search for people lost at sea.
It might even kill germs in the water.

One day, these strange new fish
will swim far and deep.

They will show us the secrets of the sea.

A bot is a computer program or little machine that can perform simple, repetitive tasks.

Are You a Fish?

(English)

There are some strange fish swimming in the sea. They are made of metal, foam and gel, and they hunt for smugglers and pirates. Would you like to see them?

This is a Level 2 book for children who recognize familiar words and can read new words with help.

Pratham Books goes digital to weave a whole new chapter in the realm of multilingual children's stories. Knitting together children, authors, illustrators and publishers. Folding in teachers, and translators. To create a rich fabric of openly licensed multilingual stories for the children of India and the world. Our unique online platform, StoryWeaver, is a playground where children, parents, teachers and librarians can get creative. Come, start weaving today, and help us get a book in every child's hand!
