it underneath. initial or whole name. You could also write your child's name and have him/her copy practice writing his/her name at home by signing drawings with either his/her first is already starting to write his/her name or first initial at school. Have your child your child practice at home by drawing with crayons and thick markers. Your child Your child is doing lots of activities that will get him/her ready to start writing. Have

## Here is the Beehive

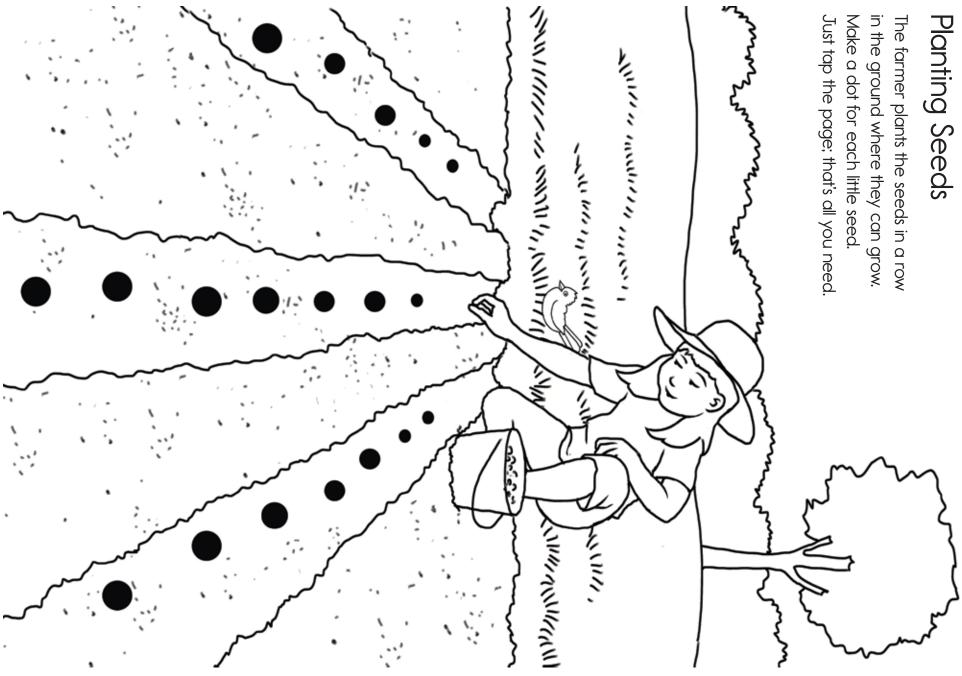

They're hiding away so nobody sees. Soon they'll come creeping out of their hive, One, two, three, four, five. Buzz-z-z-z! Here is the beehive. Where are the bees?

### Baby Chicks

down, up, down, up—make them all the same height. Keep making lines from left to right a diagonal line down, then up—what fun! The chicks are hatching one by one

### Baby Chicks

down, up, down, up—make them all the same height. a diagonal line down, then up—what fun! Keep making lines from left to right The chicks are hatching one by one

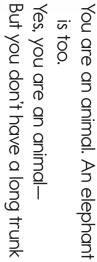

### SIIII ANIINGANI Just tap the page; that's all you need. The farmer plants the seeds in a row in the ground where they can grow. Make a dot for each little seed. Planting Seeds

## Humans are Animals

But we are all animals as you shall soon see. Some have big ears and brown hair, like an ape Animals look different from you and from me, And some float in water when taking a nap. Some have a tail or wings they can flap Animals come in all colors, sizes and shapes

But you don't have a furry body Yes, you are an animal-You are an animal. This dog is too like some animals do.

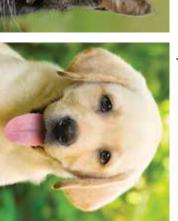

like some animals do

Wait just a minute. Let's play a game Instead of how animals are different how are animals the same?

Our sense of sight lets us look all over the place Use your eyes to look at each animal's face

Use two eyes to see, just like you Cats and puppies, gerbils too,

Pigs use their noses to sniff and to smell. Humans use their noses to smell as well.

Sharks have sharp teeth to chomp and to chew. Humans use teeth to eat their food, too.

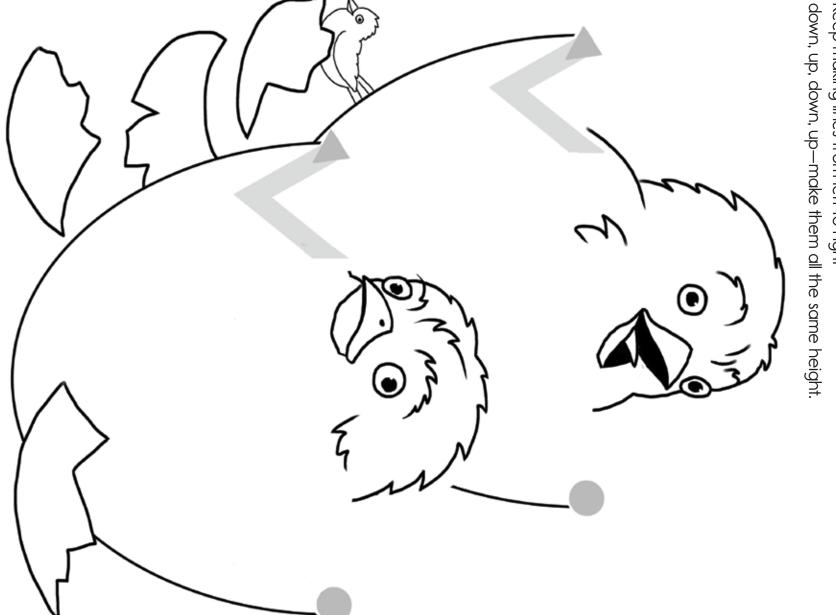

Arms help koalas and humans climb trees— With strong hands and arms, they hang from branches with ease.

There are all kinds of animals that live and that grow.

We are all animals; isn't that so?

### Baby Chicks

a diagonal line down, then up—what fun! Keep making lines from left to right The chicks are hatching one by one

### WWANTERN IN Just tap the page; that's all you need. The farmer plants the seeds in a row 11 700 11 001 170-1 in the ground where they can grow. Make a dot for each little seed. Planting Seeds

### Take-Home

### Animal Body Parts Riddles

Describe each animal on the page by naming and talking about its body parts (see examples at left). Ask your child to point to and name the animal you are describing.

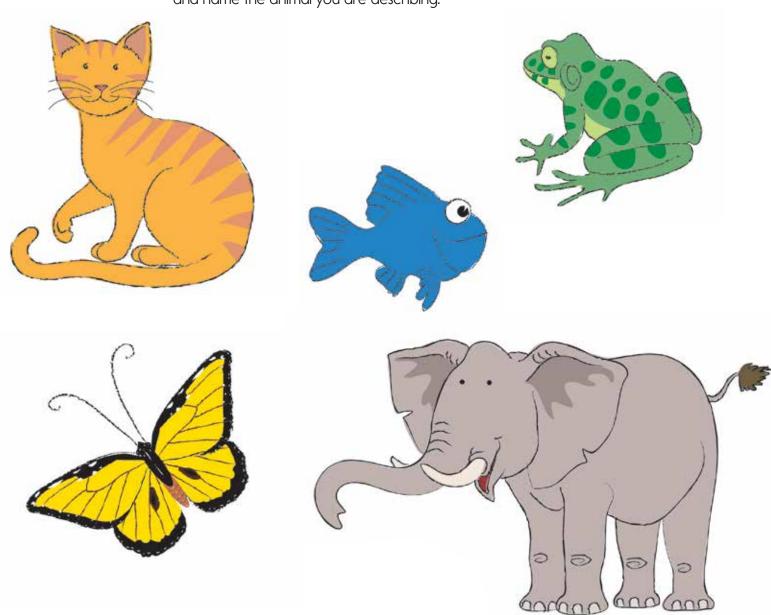

"I spy an animal with pointy ears, whiskers, a tail, four, legs, and four paws. It makes the sound 'meow'." (Cat)

"I spy an animal with four legs and a trunk." (Elephant)

"I spy an animal that is very small and has wings that help it fly." (Butterfly)

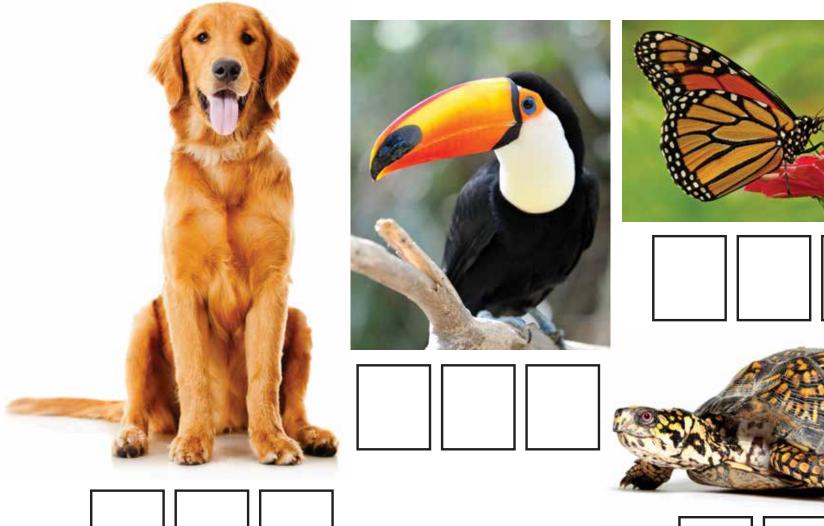

"I spy an animal with legs for hopping. It makes the sound 'ribbit'." (Frog)

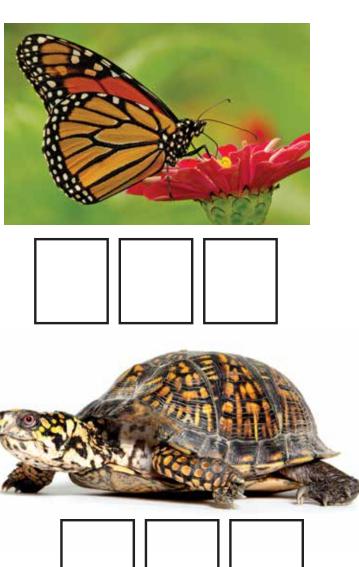

"I spy an animal with fins and a tail that it uses to swim." (Fish)

### Animal Syllables

Help students say the name of each animal and clap the syllables in the animals' names. Then ask students to color in the correct number of squares to represent the number of syllables in the animals' names.

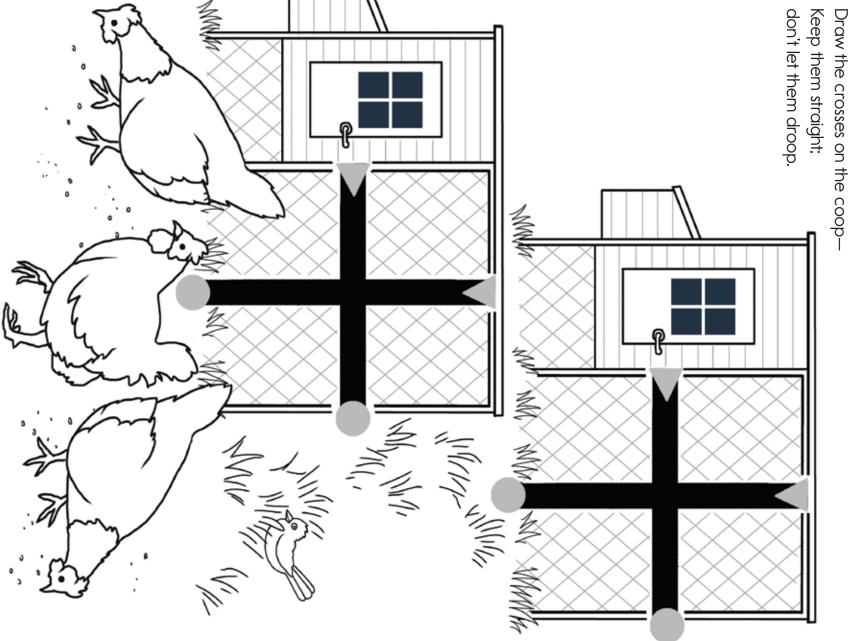

### Chicken Coops

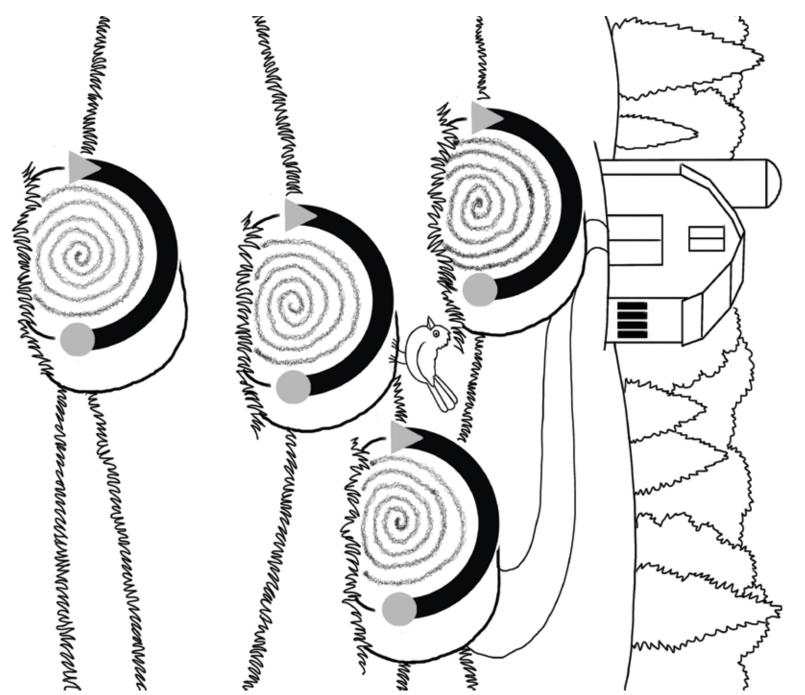

Coops keep chickens from getting lost.

One line down and one across.

### Bales of Hay

For hungry horses, a delicious meal. Bales of hay all through the field Make them round; make them bend. Draw the tops from end to end

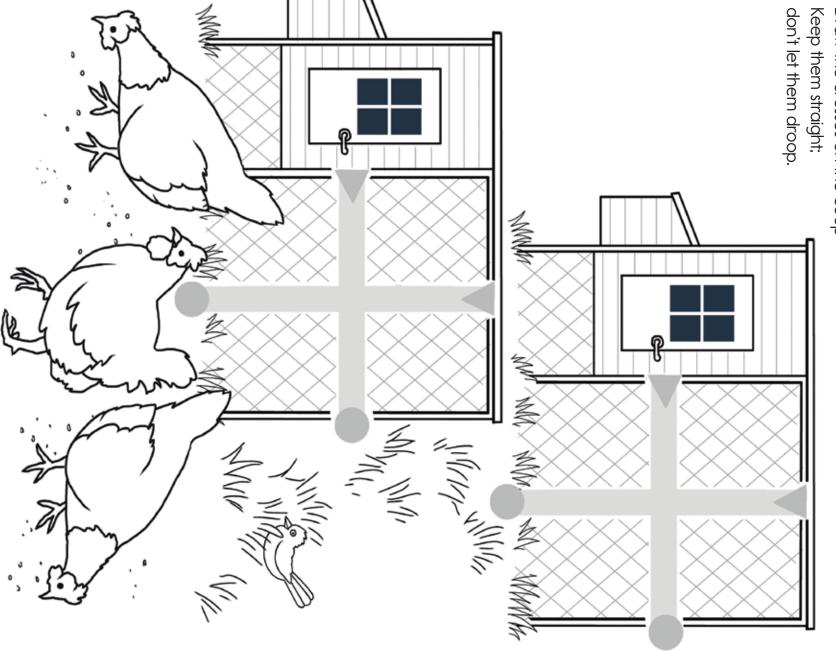

### Chicken Coops

Coops keep chickens from getting lost.

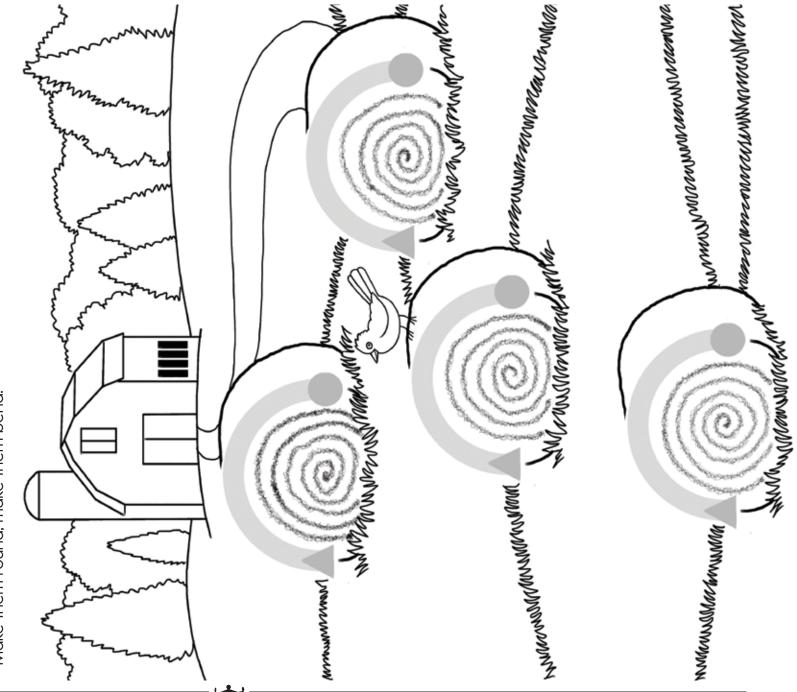

One line down and one across.

Draw the crosses on the coop—

### Bales of Hay

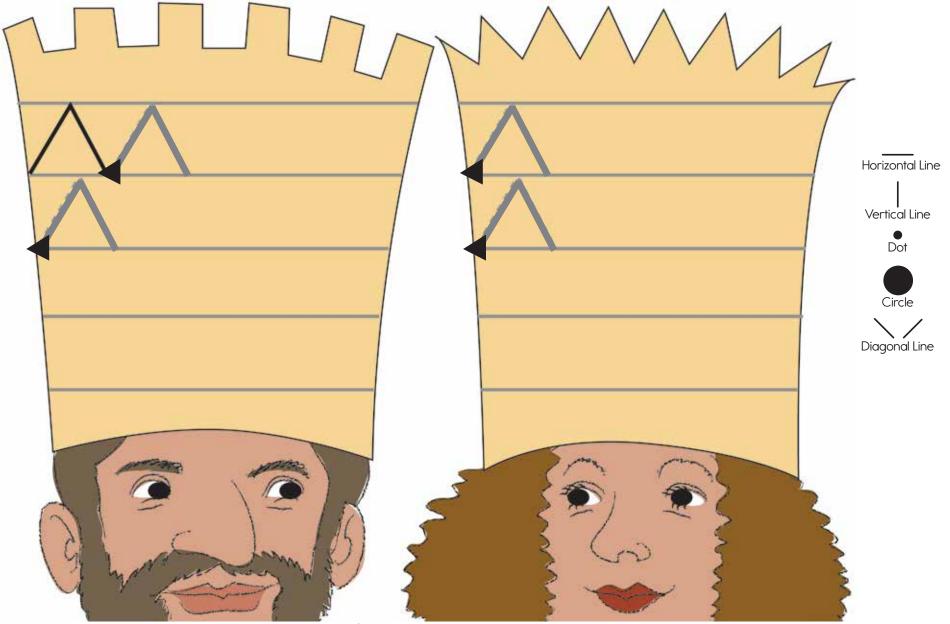

Make them round; make them bend. For hungry horses, a delicious meal. Bales of hay all through the field Draw the tops from end to end

### Drawing Zigzag Lines

Ask your child to decorate the king and queen's crowns with zigzags on the first two rows. Then, have your child use other writing strokes to complete the crowns. Your child might use horizontal or vertical lines, dots, circles, or diagonals in addition to zigzags.

### Chicken Coops

Coops keep chickens from getting lost.

One line down and one across.

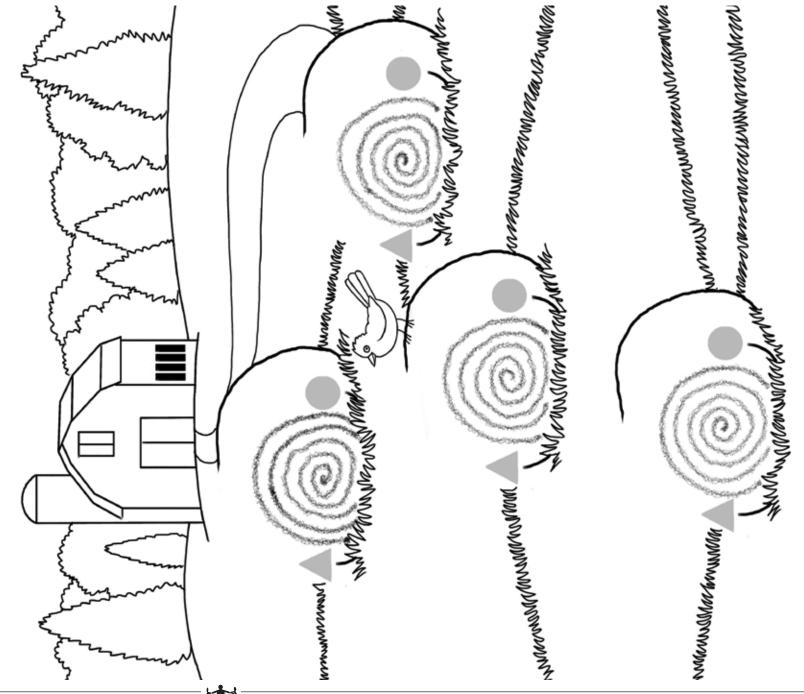

Draw the crosses on the coop—

Keep them straight;

### Bales of Hay

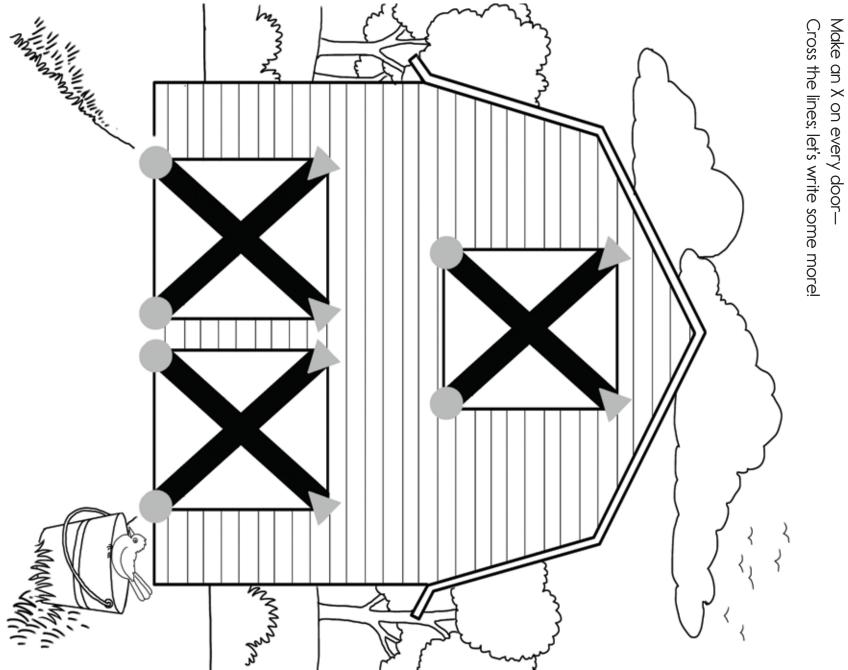

Bales of hay all through the field For hungry horses, a delicious meal. Draw the tops from end to end Make them round; make them bend.

## Animals: Family Letter 2

Dear Family Member

since we will be learning all about words that start with 'mmm' (like monkey). rhyming, drawing, and writing. Your child might come home saying the 'mmm' sound, insects, fish, and mammals. In our Small Groups, we will be practicing telling stories, animals and their mothers. S/he will also learn about groups of animals, such as birds, learning more about animals in the coming weeks. Your child will learn about baby Children love learning about and seeing pictures of animals, and we will continue

remember what they are learning about at school: Below are some suggestions for activities you might do at home to help your child

## 1. Read Aloud Each Day

to stay alive. Talk about what certain animals like to eat and drink, and where they like to live. As you read stories about animals, talk with your child about what real animals need

## Sing Nursery Rhymes

recite this rhyme for you and talk about how hens and other animals lay eggs. to "Hickety, Pickety, My Black Hen" are on this back of this letter—have your child for "The Eensy, Weensy Spider" and "Hickety Pickety, My Black Hen." The words is learning at school. Your child may come home singing and doing the motions Encourage him/her to sing the old favorites, and to share the new rhymes s/he At this point in the school year, your child has learned quite a few nursery rhymes.

# 3. Play with Stuffed Animals

and what they might like to eat. with him/her about where those animals might live (pond, ocean, forest, desert) Encourage your child to play with his/her stuffed animals. As your child plays, talk

## Practice Rhyming

daily routines, encourage them to make silly rhyming pairs using everyday words example: brush and mush, or plate and bait). The words can be real or made up, but should end with the same sound (for Your child is doing lots of activities to practice rhyming. As students go about their

# **Practice Writing Name**

day. Encourage your child to practice writing his/her name whenever she is drawing. You can also write your child's name so s/he can copy it. At school your child is practicing writing his/her name to sign in to school each

11-4

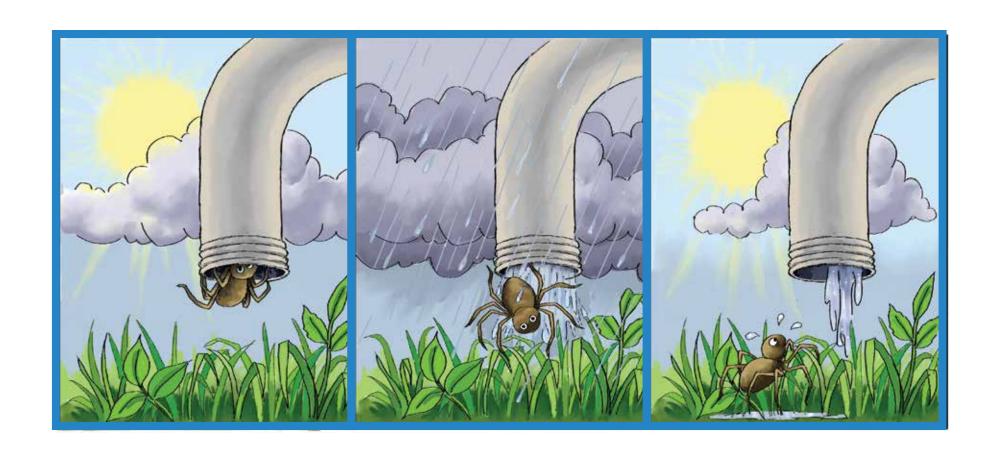

# Hickety Pickety, My Black Hen

Hickety pickety, my black hen, She lays eggs for gentlemen. Gentlemen come every day To see what my black hen doth lay.

### Tell the Story of "The Eensy Weensy Spider"

Help students cut out the three pictures, or cut them out for them. Have students sing "The Eensy Weensy Spider." Then, help students glue or tape the pictures in order on a sheet of paper from left to right. Use the words first, next, and last to describe the order of events in the song.

### Observing Animals

Ask your child to observe an animal that she sees every day. Your child might choose a pet or a familiar wild animal such as a squirrel, an ant, or a bird. Then ask her to pretend she is a scientist who is studying this animal. Ask each question out loud. Listen to her answer, then write it down, repeating the words aloud as you write. Now your child has made a scientist's journal of her observations of an animal.

What kind of animal is this? How big is it? What color is it? What covers its body: Fur? Scales? A hard outer shell? How does it move: Walk? Swim? Fly? Slither? What body parts does it have? What body parts does it use to move? What does it eat? What does it drink?

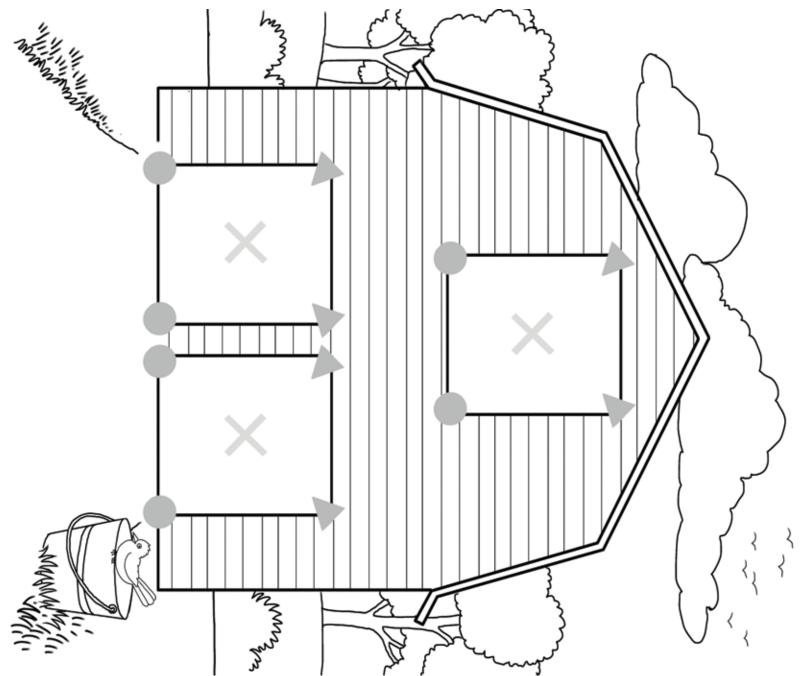

## Barn Doors

The big barn doors are closed up tight.

Slide down from the left; slide down from the right.

Make an X on every door-

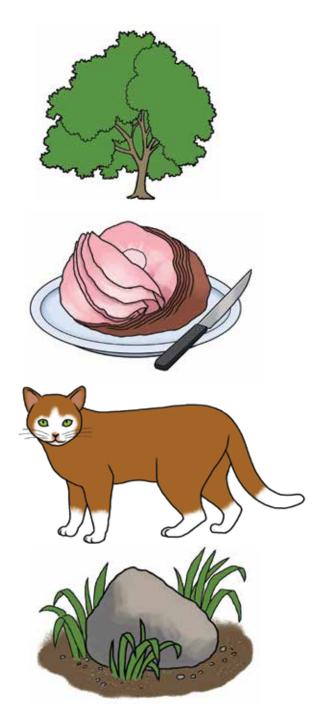

Cross the lines; let's write some more!

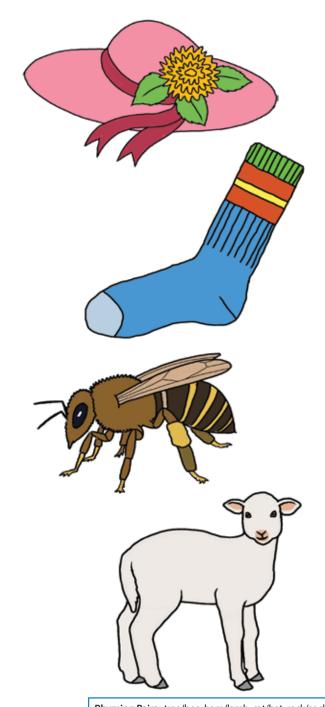

### Make a Rhyme

Point to each picture on the page and tell students what it is. Then, tell students to draw a line between the two things that rhyme. Remind students that rhyming words sound the same at the end. Encourage students to say the words out loud to see if they rhyme or to check their work.

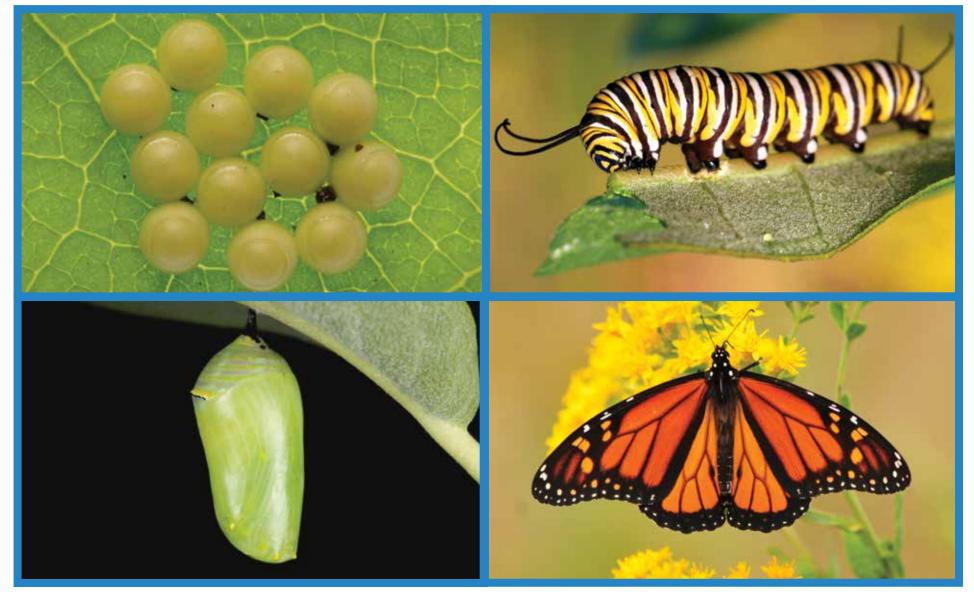

### Caterpillar to Butterfly Life Cycle

Help students cut out the four pictures, or cut them out for students. Review the life cycle of a butterfy, and help students glue or tape the pictures in order on a sheet of paper from left to right. Use the words egg, caterpillar, chrysalis, and butterfly to describe the life cycle.

and fish. Read the text to your child and talk about different groups of animals. Today your child listened to a read-aloud about three groups of animals: birds, insects,

# Groups of Animals

look different from one another, animals that are alike belong to the same group. There are many different kinds of animals in our world. Even though animals

have wings that they can flap. Birds different kinds of birds, but all birds a goldfinch are alike or the same? know how a chicken, an eagle, and each look different. But do you A chicken, eagle, and a goldfinch They are all birds. There are many

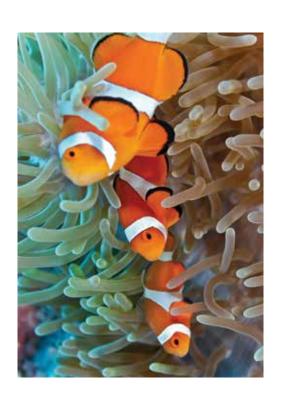

Some beaks are long and big, some are shorter and smaller. Beaks are hard and pointy. Birds use their beaks to peck, eat food, and drink water. legs on which they can stand. Birds have a special type of mouth called a beak are covered in feathers that keep their bodies warm and dry. All birds have two

things in common. hatch, a baby bird comes out. Birds aren't the only group of animals that have Birds lay eggs. Birds have to take care of their eggs until they hatch. When the eggs

How are clownfish, goldfish, and sharks all the same? They are all fish. There are many different kinds of fish, but all fish have fins and tails. They use their fins and tails to swim through the water.

All fish live and swim underwater. Some fish live in the ocean where the water is salty; it is called salt water. Some fish live in lakes, ponds, and streams where the water isn't as salty. They live in fresh water. Fish don't need air to breathe. Fish have gills that let them breathe underwater.

a beetle, a butterfly, and an ant the same? They are all insects. Insects come in all colors Fish and birds aren't the only groups of animals that have things in common. How are and shapes. They have six legs. Insects can look very different from one another but they are all very small. Most insects are smaller than the tip of your finger.

and belong to special groups. Some animals are birds, some animals There are all kinds of animals. Some animals have things in common are insects, and some animals are fish.

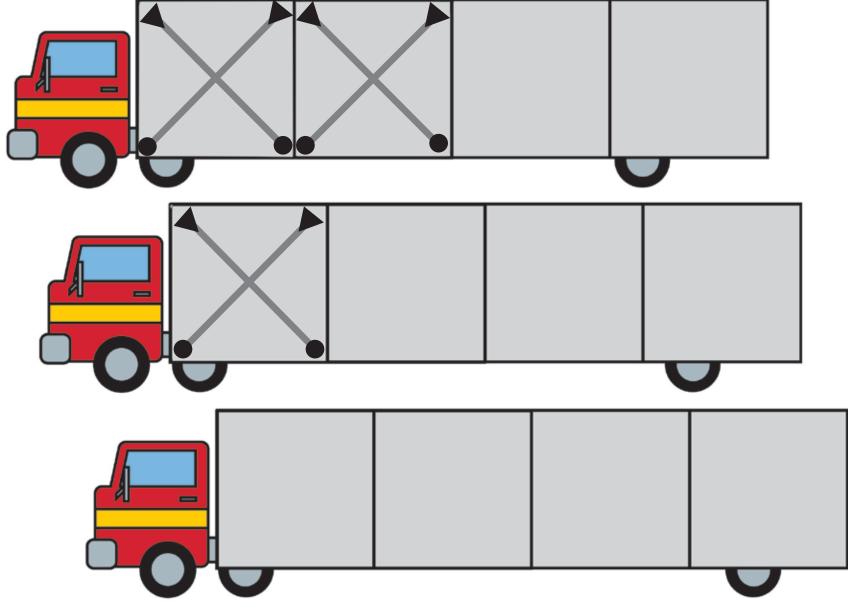

Help students identify and circle all sound pictures showing /m/. Circle the Sound Picture: Help students remember what the sound picture /m/ looks like by drawing it on a sheet of paper or having students draw it on paper or in the air. If a picture does not show the sound picture for /m/, students should draw a line through it.

#### Mark These Trucks

Help your child practice the writing stroke X by drawing an X to fill each box on the trucks below. If your child is ready, have her practice drawing X's and other writing strokes on a blank piece of paper
