

How Many?

Author: Sudeshna Shome Ghosh

Illustrator: Sayan Mukherjee

Level 1

An illustration of two pink snails with spiral shells on a large green leaf. The snail on the left is facing right, and the snail on the right is facing left. They are both looking at each other. The background is filled with more green leaves.

2 snails hear a croak,

1 snail tells them a joke.

How many snails can you see?

An illustration featuring three snails on a yellow, textured background. The snail at the top center is pink with a dark pink shell. The snail at the bottom left is pink with a dark pink shell. The snail at the bottom right is orange with a brown shell. There are several green leaves scattered around the snails. In the center of the image, the text "1 + 2 = 3 snails" is written in black.

1 + 2 = 3 snails

An illustration of five goldfish in a pool. Two goldfish are at the top, one orange and one red. Three goldfish are at the bottom, one orange and two red. The background is blue water with green seaweed and a rocky bottom. The text "2 fish in the pool, 3 more fish make it a school." is in the center.

2 fish in the pool,
3 more fish make
it a school.

How many fish?

An illustration of five goldfish swimming in a blue pond. Two goldfish are orange and yellow, and three are pink and orange. The pond has green seaweed and white bubbles. The text "2 + 3 = 5 fish" is written in the center.

$2 + 3 = 5$ fish

3 pigs playing in the sun,

4 pigs join the fun!

How many pigs can you see?

A vibrant illustration of seven pink pigs in a green field. The pigs are drawn in a cartoonish, friendly style with large eyes and small ears. They are scattered across the frame: one is standing in the top left, another is standing next to it, a third is standing in the top right, a fourth is standing in the middle left, a fifth is standing in the middle right, a sixth is standing in the bottom left, and a seventh is lying down in the bottom right. The background is a solid green color with some light green brushstrokes suggesting grass.

$3 + 4 = 7$ pigs

4 butterflies flit and fly,

5 butterflies wave bye-bye.

How many butterflies can you see?

The image features nine stylized butterflies of various colors and patterns arranged in a circular formation around the central text. The butterflies include: a brown and orange butterfly at the top left; a dark blue butterfly with white spots at the top center; a yellow butterfly with black spots at the top right; a blue butterfly with red and yellow patterns on its wings at the middle right; a dark blue butterfly with white spots at the bottom right; a pink butterfly with white spots at the bottom center; a green and yellow butterfly at the bottom left; a green and yellow butterfly at the middle left; and a blue butterfly with white spots at the top left. The background is a soft, swirling gradient of pink and orange.

$4 + 5 = 9$ butterflies

5 worms slip and slide,

5 more worms join the ride.

How many worms can you see?

5 + 5 = 10 worms

10 ants all in a row,

Look, here come **2** more.

How many ants can you see?

A collection of 12 cartoon-style red ants with large eyes and antennae, scattered across a dark blue background. In the center, there is a light red rounded rectangle containing the text "10 + 2 = 12 ants".

10 + 2 = 12 ants

How many creatures can you count?

Snail + Fish + Butterfly + Pig + Ant + Worm
